

Ergonomically supporting the best in  
labs, tech, & manufacturing.

Are you sitting comfortably? No?  
We'd better begin.

**techsit**  
TECHNICAL WORK SEATING

#### Goodbye slouching. Hello Techsit.

We typically sit for up to 7 hours a day at work. Poor seating leads to poor posture, which affects morale and productivity, and is a leading cause of back ache (a leading cause of lost working days).

Perfect for hardworking environments, Techsit's unique and innovative seating designs combine first-class ergonomics with rugged durability, at a price point the finance director won't wince at.

#### First-class ergonomics

With many years' experience in ergonomics and technical seating, Techsit's innovative designs combine class-leading ergonomics with comfort and safety.

#### Intelligent design

Modular design means our technical seating can be tailored to your operating environments, and the needs and wants of your teams.

#### Made in the UK

Techsit products are designed and manufactured to the highest standards. Robust, durable, high quality, and great value.

Techsit is led by a team of technical seating experts who recognised the need for high quality work seating in production environments that didn't require corporate bridging loans to afford.

0845 051 3812    [sales@techsit.co.uk](mailto:sales@techsit.co.uk)

Laboratory seating

Combining comfort, ergonomics, and rugged durability with class-leading hygienic design features. Complies with all relevant UK and European Health and Safety Regulations.

ESD antistatic seating

Designed for sensitive ESD production areas. Comfortable, ergonomic, and durable technical seating that conforms to BS EN 61340-5-1 for conductivity.

Cleanroom seating

Designed to the strict criteria required for cleanroom, electronic, pharmaceutical, and medical environments. The only thing they don't have is colour - for cleanroom environments black really is the new black!

Production seating

Supportive, flexible, ergonomic, tough – perfect technical seating for production line and factory environments.

# Laboratory seating

Combining comfort, ergonomics, and rugged durability with class-leading hygienic design features. Complies with all relevant UK and European Health and Safety Regulations.

## Tech Range

Combines ergonomic design with durable, rugged manufacture. Perfect for laboratory and healthcare environments, upholstered in Camira Vita antimicrobial vinyl which offers maximum heavy duty protection.

Page 8-9

## Pro Tech Range

Advanced seating, designed and built without compromise. The Pro-tech range brings class-leading ergonomics into the laboratory. With free-floating, weight-responsive synchro-mech, seat slide, ergonomically curved back and seat, and simple minimum touch controls. Pro-tech laboratory chairs have fully enclosed mechanisms, seat, back, and gas lift to reduce particle contamination, and are finished with Camira Vita antimicrobial vinyl.

Page 12-13

## Tech PU Range

The tough guy. Durable, robust, easy to clean... perfect for the most challenging laboratory environments (to class 5). Don't let the tough exterior fool you, it's still ergonomically designed and very comfortable.

Page 10-11

## Smartsit Range

Laboratory seating with a difference, bright colours, easy clean antimicrobial PU and unique flex back for comfort. It's simply easy.

Page 14-15

# Laboratory - Tech Range

Combines ergonomic design with durable, rugged manufacture. Perfect for laboratory and healthcare environments, upholstered in Camira Vita antimicrobial vinyl which offers maximum heavy duty protection.

- ✓ Suitable for cleanroom class 7
- ✓ Waterproof and stain repellent
- ✓ Bleach cleanable
- ✓ Resistant to alcohol cleaners
- ✓ 150 kg weight capacity

## Base Options:

Black base (BB)

Chrome base (CH)

## Feet Options:

Glides (GL)

Soft tyre castors (ST)

Brake loaded castors (BL)
