## Spillage Prevention & Response

### Spill Kit

A wall-mounted response bucket that can absorb up to 18 litres. Easy to mount holder (not available separately). 23 litre bucket is pre-packed with PIG® Haz-Mat absorbents to clean up spills of acids, caustics and unknown liquids up to 18 litres. Easy-seal lid protects contents

Product No	Absorbs-Lt
13950/20	18

### Wall Mounted Spill Kit

Use for maintenance areas and areas prone to small spills. See-through front panel to check inventory levels quickly and easily. Write-on label for emergency

telephone numbers. Rugged welded-steel construction. Corners won't bow or sag when cabinet is fully stocked. Absorbs up to 49 litres of oils, coolants, solvents and water

Product No	Absorbs-Lt	Size (L x W x D)-cm
13950/21	49	76 x 35 x 32.4

## Spill Kits

### Spill Response Bag

This kit can be put anywhere there's a potential for a small spill. Durable water-resistant bag. Can be hung on the wall or carried by the hand straps. Highly visible safety yellow. Flaps open and close easily with 'hook and loop' fasteneing. Can absorb up to 38 litres of oils, coolants, solvents or water

Product No	Absorbs-Lt	Size (W x H x D)-cm
13950/22	38	43 x 52 x 15

### Universal Mat

Put down PIG® mat pads to soak up spills and machine drips. Ideal for general everyday use. This portable 50-count dispenser box is easy to position throughout your site at areas prone to leaks and spills. Superior durability, eight thermally bonded layers make PIG® mat the strongest mat on the market. Abrasion-resistant won't tear, rip, fray or leave fibre residue, even when saturated. Exclusive dimple pattern speeds wicking of liquid throughout the mat so clean up is quick and easy. Highly-absorbent fine fibre construction traps liquid so nothing is left behind when the mat is picked up. Dark grey colour hides grime so you use less and save money. Perforated, east to tear to size, use only what you need.

Product No	Qty in box	Absorbs-Lt	Size (L x W)-cm
13950/23	50	38 per box	51 x 41
